

Gadgets: Wearable soda pop bottles

9:01 AM, Nov 13, 2013

KUSA - Denver-based Ecocentric Brands says the formula is really quite [simple](#). Take some soda pop plastic trash, shred it, spin it and then wear it.

Auggiedog

This is described as a no-touch system for picking up after your pooch. Here's how it work: lower the barrel of the Auggiedog over the poop, select the "collect and lift" switch, then push the pickup/release button.

When collected and ready, the augger will rotate the poop into a container or toilet. Keep the Auggiedog in a Clean Station between uses. www.Auggiedog.com is the website.
