Auggiedog

Auggiedog, The Power Stool Tool

Description: Auggiedog, the award-winning motorized pooper scooper, is the world's only complete dog waste disposal system. The innovative stool tool is unique and requires no bending nor touching, while portable, self-cleaning and easy to use. With an innovative motor-driven auger the device turns one direction to pick up and hold the waste and another direction to discard waste into a trash receptacle. The complete Auggiedog solution comes with the Auggiedog, a power charger and a foot-operated cleaning station that serves as an odor-free docking place for the device when not in use. Several value-added benefits are built-in to each Auggiedog including an integrated LED light for nighttime operation and enhanced safety, a wrist strap for security, and an obedience training whistle that can help dogs respond to commands.

Price: \$149.99
