

## Invention Cleans Up Dog Presents

Now I have seen it all! As we all head out to the back yard as the nice weather returns and we see the mess that our friend Fido has left out there all winter. Having just spending close to an hour picking up after my dog with close to 20-pounds of waste, I thought there must be a better way. There are companies that will come and clean your yard for you, they come by once a week and clean up after your dog. Then I was watching late night television and up came this infomercial for Auggiedog, a new invention that picks up after your dog while on a walk or after he takes care of business in the backyard. This has me thinking I might need to order one.
